Design / Frontend

Navigation	Events Related	Media Related
About section can be all under 1 page rather than separate links for each subcategory	Have a notification system that alerts members of upcoming events.	Adding a small section for events at the main home page showcasing pictures of previous events
Career development profs tab can be moved under about us as a separate tab	Implementing a calendar system with tentative event dates.	Highlighting the podcast better and including a mini advertisement/trailer for the podcast
Having plain colour backdrops with titles rather than picture background	Have previous events under a archived section	Make a new tab called media and add blog and podcast under that
		Widget system that displays new Facebook and LinkedIn posts in home page
