Customers Feedback on Final Product Delivery

Showcase	Description	Status	Customer comments
Website	Overall website layout and functionality.	**Need modifying**	In the Register page, Colleen suggested swapping the member registration information section with the registration form to allow users read the details before filling the forms. Colleen had a concern of storing the submitted registration forms in an Excel sheet instead of having them sent to an email. We informed her that it needs some search but it is doable. In the Event page, both Colleen and Charlene were happy with the adding event feature and they said that it will make the job of adding events way easier. They liked the Podcast layout. Overall, they both liked the product and mentioned that it is amazing.
Navigations	Navigations through the website.	✓	They did not have any comments or questions on the navigation.

			They seemed to be happy with the extra links distributed between the pages, which are linked to related pages.
Formatting and coloring	Formatting/fonts/coloring in the website.	✓	We had some comments on fonts and coloring for the high fidelity prototype which we represented previously. We completed the stage while keeping in mind to modify based on the comment we previously received. As a result, no further concern was mentioned, and they seemed to be happy.
Plugins	The plugins used in the website.	✓	We explained to the customers the reason for not using a theme. We also mentioned to them all the plugins we used and we explained their purposes. They did not have any questions about it.
